- Uses powdered milk for high-volume, low-maintenance operation
- Self cleaning system
- ConnectMe® remote monitoring & diagnostics option
- Payment processing option
- Suitable for high-traffic sites of up to 200 staff per day

Krema 450P Series Automatic Coffee Machine

Designed for high demand

The Krema 450P Series delivers premium, café-style coffee at scale —perfect for high-traffic environments where speed, consistency, and reliability matter. With a bold design that nods to traditional espresso machines, it elevates the look of any workspace while maintaining a compact footprint. The ultra-responsive 14" touch-screen interface allows for effortless navigation and quick service during peak times.

Smart, simplified service

Engineered for busy sites, the 450P Series uses powdered milk to reduce cleaning requirements without sacrificing beverage quality. Series offers up to 14 beverage options, including espresso, flat white, latte, piccolo, hot chocolate, and (optional) chai spice.

Optional ConnectMe® connectivity enables remote monitoring and diagnostics, while the removable drip tray and cup stand make daily maintenance easy. Built-in LED lighting and dual outlets ensure efficient, intuitive operation for up to 200 users per day.
